# Perkadox<sup>®</sup> L-40 RPB

Marking the road ahead with our  
new BPO formulation

We present the next generation Benzoyl peroxide (BPO) suspension for curing acrylic road marking and flooring resins: Perkadox L-40 RPB

### Perkadox L-40 RPB one-liners

- 40% BPO suspension
- Easy pumpable and sprayable
- Smooth and homogeneous
- High stability, little phase separation
- Universal applicable, no side effects
- Successfully tested by Hofmann Germany

### Reactivity

The reactivity of Perkadox L-40 RPB is in line with market standards for curing acrylic roadmarking and flooring resins.

### Storage stability

- Active oxygen and physical stability is excellent for at least 6 months
- Shake before use
